Rear Seat Entertainment Mount for iPad2 and the New iPad

A touch of brilliance & convenience

Audiovox brings you the ultimate multifunction accessory for your Apple iPad2 or new iPad devices, combining the best of protection and versatility in one intelligently designed system. The Audiovox Rear Seat Entertainment Mount System offers 4 distinct vehicle kits to deliver the right mix of fit and function, each featuring a low-profile protective case that safeguards your iPad with style. Add more value and versatility with a host of accessory options to expand on-the-go and home/office enjoyment of our iPad cases.

Features:

- Low Profile protective case
- Steel structure for safe and secure mounting
- Easily docks and undocks to the seatback via a "Quick Connect" attachment mechanism
- 6 depth settings to allow proper fitment to the seat depending on the size of the headrest
- Adjustable Tilt (Up/Down)

	IPD-2FM	IPD-2HP	IPD-2C	IPD-1
