

The MM-8, a compact 9-inch cube, has a small stance but provides clear, deep bass reproduction, unlike other mini-subwoofers. It features a deep-reaching 8-inch woofer and two 8-inch passive radiators with Ribbed Elliptical surrounds, a proprietary component which has been designed to increase excursion, eliminate distortion and raise efficiency. Coupled with the proprietary surround ribs that eliminate any surround dimpling, this small subwoofer plays lower, delivering greater output and fidelity than the competition.

With a frequency response down to 36Hz, 1200 watts of power and the clean performance of the black anodized aluminum cone woofer and radiators, the MM-8 performs like a much larger subwoofer.

- Powerful deep bass
- Versatile positioning - tuck away under a table or in a corner
- Furniture grade high gloss black finish

Specifications	
Speaker System	Single active, dual passive
Woofer	8-inch (20cm) Black anodized aluminum cone with inverted Ribbed Elliptical Surround
Passive Radiators	2 x 8-inch (20cm) Black anodized aluminum cones with inverted Ribbed Elliptical Surround
Amplifier Power	1200 Watts
Frequency Response	36Hz-200Hz
Max SPL	102.6dB @ 30Hz, ground plane, 1m
Variable Low Pass Filter	50Hz-200Hz, Bypass
Phase Control	0° -360°
Inputs	L + R Line in/Sub in
Power Modes	Off/auto/on
Units/Carton	1
Dimensions H x W x D	9 x 9 x 9 inches 22.7 x 22.7 x 22.7 cm
