

As the smallest speaker we have ever made, the **MX** is all about **Minimum eXposure** and **Maximum eXcitement**. It delivers big, immersive audio entertainment that won't drown out your décor or intrude upon your everyday lifestyle.

While this palm-size speaker uses extremely high-performance components to blow you away, the fact that we were able to apply our unique Omnipolar® technology to a product this size is the most impressive feature of them all. With compact designs, the Omnipolar advantage of creating a massive soundstage is even more important than with larger speakers. You'll find this technology only works with the best drivers possible; otherwise, the magic wouldn't be there.

#### Exclusive Omnipolar® technology benefits:

- Immersive 360° audio entertainment; wherever you go, the sound follows
- Perfect balance of direct and reflected sound, for accurate, realistic listening
- Placement versatility without sacrificing performance

Specifications	
<b>Amplifier Power</b>	10 to 100 Watts RMS/ channel
<b>Impedance</b>	8 Ohms nominal / 4 Ohms minimum
<b>Magnetically Shielded</b>	Yes
<b>Frequency Response</b>	110 Hz - 20 kHz
<b>Sensitivity</b>	87dB
<b>Crossover Point</b>	3.5 KHz
<b>Components</b>	Tweeter: 5/8" (16 mm) pure titanium hybrid Woofer: 2 1/2" (64 mm) high efficiency woofer with aluminum cone
<b>Connectors</b>	Integrated push terminals
<b>Dimensions HxWxD</b>	Inches: 4.04 x 3.2 x 3.54 (height with grille 4.33") Cm: 10.2 x 8.14 x 9.0 (height with grille 10.1)
<b>Weight</b>	1.455 lb / 0.66kg
<b>Finish</b>	High gloss black
<b>Cabinet Material</b>	Ultra rigid polycarbonate enclosure
<b>Grille Material</b>	Magnetic with black cloth
<b>Accessories</b>	Integrated dual key way mount
<b>Optional Stands:</b>	Sanus HTB-7 black and similar universal stands
