

Uni-Theater®

3-in-1 Flat-Panel Speaker

MIRAGE®

The Uni-Theater is an innovative home theater solution that offers three speakers—left, center and right channels—and a room full of high fidelity sound in one horizontal cabinet.

Featuring high quality materials and exclusive Omnipolar® technology, the Uni-Theater provides immersive 360° music and movie performances from anywhere in the room. It handles front and rear sound distribution, while also conveying surround effects. Pair the Uni-Theater with a Mirage subwoofer to round out the low end of the home theater experience.

The Uni-Theater also offers placement ease. It includes a flush-mountable wall bracket, allowing the speaker to protrude only as far as a standard flat-panel display, as well as a plate-glass and metal table stand. A two-position boundary compensation switch on the back of the unit adjusts low-frequency response, creating unbeatable performances on or off the wall.

Exclusive Omnipolar® technology benefits:

- Immersive 360° audio entertainment; wherever you go, the sound follows
- Perfect balance of direct and reflected sound, for accurate, realistic listening
- Placement versatility without sacrificing performance

Specifications

System Type	2-way Magnetically shielded integrated L/C/R system with patented Omnipolar array
Frequency Response	80 to 20kHz(+/- 3dB)
Nominal Impedance	8 Ohms
Power Handling	100 Watts
Recommended Amp Power	10 to 100 Watts
Impedance	4 Ohms minimum
Tweeter	3/4" (19mm) pure titanium tweeter per channel
Midrange	Two 3" Titanium deposit hybrid passive radiator per channel; 3" Titanium deposit hybrid woofer per channel
Room Efficiency	88 dB
Crossover Point	2.7kHz
Inputs	High quality 5-way binding posts
Dimensions	Inches: 5.2 x 36.7 x 4.6 Cm: 13.2 x 93.2 x 11.7
Weight	18 lbs. / 8.165 kg
Finishes	Brushed aluminum black or brushed aluminum silver
