Note: This operation will cause instant stop of track playing.

Track Search - Locating a Particular Point in a Track
- Keep the MEMORY/SET or MEMORY button pressed during play and release at the desired point.

### Alarm Clock AM/FM Radio With CD Player

#### INSTRUCTION MANUAL

For best results, please read this manual carefully before using the unit.

**WARNING:** TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THE UNIT TO RAIN OR MOISTURE. TO AVOID ELECTRICAL SHOCK, DO NOT OPEN THE CABINET. REFER SERVICING TO QUALIFIED PERSONNEL ONLY.

### CARE AND MAINTENANCE

#### General Guidelines
- Do not touch the laser lens on the CD player.
- Temperature changes may cause condensation on the laser lens. If condensation forms on the lens, refer the unit for about an hour until condensation evaporated.
- Do not leave the unit exposed directly under sunlight or extreme heat such as inside a car parked in the sun. This can cause damage or malfunction.
- To prevent dust from reaching internal components, do not leave the unit exposed to direct sunlight or extreme heat such as inside a car parked in the sun. This can cause dust and particulate matter to enter the unit.
- Do not use volatile substances such as insecticides or spray near the unit. This can cause damage or malfunction.
- Do not cover the unit with cloth.

#### Problems
- Poor FM reception
- Electrical interference in your home can cause poor reception. Move the unit away from them (especially those with motors and transformers).
- Poor AM reception
- Rotate the unit horizontally.

#### CLOCK
- Problems
  - Clock does not show the correct time.
  - Alarm does not come on at the preset time.
- Solutions
  - There has been an electrical power interruption. Turn on the TUNER, CD or BUZZER alarm, check the following points:
  - Is the current time correctly set on the time display? Check the AM/PM indication.
  - Is the alarm time correctly set? Check the AM/PM indication.
  - Is the desired station tuned in?

### SPECIFICATIONS

- **Power consumption:** 8W
- **Power requirements:** AC 120V - 60Hz, DC 9V

Specifications are subject to change without notice.

Printed in China 811-308091-010
On Safety
As the laser beam used in this compact disc player could be harmful to the eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel only.
- Do not put any foreign objects in the disc compartment. If you do so, the laser beam interlock may be defeated allowing the laser to remain on when the lid is opened.
- Do not put any foreign objects in the DC 9V (external power input) jack. Should any solid objects or liquid fall into the unit, disconnect the power supply and have the unit checked by qualified personnel before any further operation.

On Operation
Since the CD system offers a wide dynamic range, the peaks of the high level inputs are recorded with high fidelity, and the noise level is very low. Do not turn up the volume while listening to a part of the disc with no audio signals or very low level inputs. If you do so, the speakers may be damaged when the peak level of the sound is played. The lens of the laser should be kept clean. Do not touch the lens or poke at it with your fingers. If you do so, the lens may be damaged and the unit will not operate correctly.

On Use
Never use the unit where it would be subject to:
- Heat sources such as radiators or air ducts.
- Direct sunlight.
- Excessive dust.
- Moisture or rain.
- Mechanical vibration or shock.
- Unleveled surface.

- Do not place any heavy object on top of the unit.
- When the unit is used with an AC power adaptor, do not wrap the unit in a cloth, blanket, etc. If you do so, the temperature inside the unit may rise considerably, resulting in malfunctioning of the unit.
- If the unit is brought directly from a cold to a warm location, or is placed in a very damp room, the moisture may condense on the lens inside the unit. Should this occur, the unit will not operate. In this case remove the disc and leave the unit in a warm place for several hours until the moisture evaporates.
- For the unit to operate at its best, it should not be subjected to temperatures below 5°C (41°F) or above 35°C (95°F).

AC POWER ADAPTOR
Please use a 9V 500mA power adaptor. Plus pole (+) to the center pin of the 5.5mm socket. When the unit is not in use, be sure to disconnect the AC power adaptor from the mains supply.

Remarks:
If AC cord is unplugged, please wait 5 seconds before AC cord is plugged in again.

TUNING ON THE UNIT
Plug the AC adaptor to AC outlet. This display will light up in standby mode.
Press STANDY button, and press FUNCTION button to select the desired function, the corresponding indicator will light up.

ADJUST THE SOUND
Rotate the VOLUME to adjust sound level.

- Presetting Station Setting
The unit can store AM - 10 stations, FM - 10 stations. It can be tuned into by selecting their preset numbers. It is possible to store station of any band in order of your choice.
1. Press BAND button to select FM or AM band.
2. Press MEMORY button to tune to a desired station.
3. Press MEMORY button until "MEMORY" indicator flash.
4. Press PRESET + or PRESET - button to select channel number.
5. Press MEMORY button until "MEMORY" indicator lights up to memorize the station.
6. Repeat steps 1 to 5 for the next preset.

Tuning Into a Preset Station
1. Press BAND button to select FM or AM band.
