Mini-Subwoofers

ENERGY-SPEAKERS.COM

The ESW-M6 and ESW-M8 mini subwoofers deliver deep, accurate effects and music and plenty of room-filling power—all from 8- and 9-inch cubes that are the smallest we make. Plus, they work with a number of speakers in the Energy® line, letting you put together a system your buddies will envy. Discover what you've missed before...deeper, cleaner bass. With their incredibly small size, you might not notice them—until you crank them up.
