## CONGRATULATIONS

Thank you for purchasing your new Vehicle Headrest Entertainment System. Before operating this system read this manual thoroughly and retain it for future reference.

The 8" Rear Seat Video Headrest System has two video headrest monitors referred to as either "M1" or "M2" in this manual. The system allows the users to watch the same video source on both monitors simultaneously or individual video sources on either monitor. The full function wireless Remote Controls operate either monitor by selecting the Monitor Select "M1" or "M2" button. There are two 8" Rear Seat Video Headrest System models available that use HR8MA1 monitor.

The **HR8MA1** monitor has an 8" LCD panel with built-in DVD player that allows the user to select from several sources (DVD, USB, AUX, HDMI or SMARTSTREAM\* and M1/M2.) The monitor has a built-in infrared audio transmitter channel.

The monitor also has a built-in 2 channel infrared Headphone transmitter.

The two-channel wireless Infrared (IR) headphones have an A-B switch that allows the users to select the audio from either the M1 monitor on "CH A" or the M2 monitor on "CH B".

The M1 monitor will only respond to the Remote Control when the Monitor Select "M1" button is pressed.

The M2 monitor will only respond to the Remote Control when the Monitor Select "M2" button is pressed.

\* **SMARTSTREAM** requires an optional **WM1** module which allows Wireless Content transfer from select Smartphones and Tablets to your 8" Headrest system.

**Note:** Wireless content transfer can be limited based on the Smart device and content due to copyright regulations.

## CAUTIONS

### Important Notice

An LCD Panel and/or Video Monitor may be installed in a motor vehicle and visible to the driver if the LCD Panel or Video Monitor is used for vehicle information, system control, rear or side observation or navigation. If the LCD Panel or Video Monitor is used for television reception, video or DVD play, the LCD Panel or Video Monitor must be installed so that these features will only function when the vehicle is in "park" or when the vehicle's parking brake is applied.

An LCD Panel or Video Monitor used for television reception, video or DVD play that operates when the vehicle is in gear or when the parking brake is not applied must be installed to the rear of the driver's seat where it will not be visible, directly or indirectly, by the operator of the motor vehicle.

### Safety Precaution

For safety reasons, when changing a video disc, it is recommended that the vehicle not be in motion, and that you do not allow children to unfasten safety belts to change a disc or make any adjustments to the system.

### CAUTION

Always run the vehicle's engine while using the 8" Rear Seat Video Headrest System. Using the system without running the engine can result in battery drainage. To avoid the risk of battery drainage, please remember to turn the system OFF when the vehicle is not in use for long periods of time.

Patented, refer to [www.voxxintl.com/company/patents](http://www.voxxintl.com/company/patents)

## PRODUCT FEATURES

### The 8" Rear Seat Video Headrest Systems consist of:

1. Two matching headrests with 8-inch color TFT-LCD Display Screens (800x480)16:9 aspect ratio.
2. Two Infrared (IR) Transmitters for listening to the audio signal through Wireless IR Headphones.
3. Two wireless Infrared (IR) Headphones equipped with volume control and an A/B switch to select between "M1" and "M2".

**NOTE:** *The wireless IR headphones must be used within a line of sight from the transmitter as infrared transmission, like visible light, travels only in an unrestricted line of sight.*

4. One wireless 100 channel FM transmitter for listening to audio (*from the M1 Monitor only*) through the vehicle's FM radio by tuning to one of 100 frequencies. Locate an unused FM frequency on the radio and set the FM modulator to that frequency.

**NOTE:** *Whenever the FM transmitter is active, regular radio reception may be poor. Turn the FM transmitter off to allow normal radio reception.*

5. USB Input to connect a USB memory device. This input will also charge a USB device that contains a battery. (see page 24-26 for more information)
6. Sources:
  - **HR8MA1:** DVD, USB, AUX IN, AV/DTV (HDMI or SMARTSTREAM\*), M1/M2.
  - **SMARTSTREAM:** requires an optional WM1 module which allows LIMITED Wireless Content transfer from select Smartphones and Tablets to your 8" Headrest system.
7. HDMI Input is used to connect a device with an HDMI output such as a Smartphone.

**NOTE:** *Requires an HDMI enabled device and a special HDMI adapter. Contact your HDMI device supplier for the adapter. (see pages 25 for more information).*

8. Remote Sensors on the front panels.
9. Two full function Remote Controls to operate either monitor by selecting "M1" or "M2".
10. Controls & Indicators on the Front and Top Panel.

#### HR8MA1:

- POWER
- SOURCE (S)
- PLAY/PAUSE (▶/⏸)
- STOP/EJECT (■/▲)
- ENTER (⬆/⬇)
- LEFT/PREVIOUS (◀/◀◀)
- DOWN (▼)
- UP (▲)
- NEXT/RIGHT (▶▶/▶)
- USB Connector
- AUX Jack

### SYSTEM CONFIGURATIONS

The 8" Rear Seat Entertainment System is available in 2 model configurations. Please refer to the following figures which detail each entertainment system configuration.

Available in the configuration as follows:

**Configuration 1: Model HR8SS**

Two **HR8MA1** 8" LCD monitors with built-in DVD players. (Figure 1)

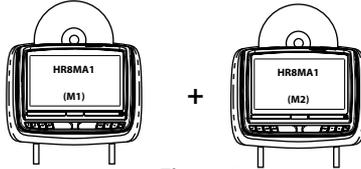

Figure 1

## REMOTE CONTROL BATTERY INSTALLATION

### Installation of the Remote Control Battery

1. Remove the battery cover.
2. Insert two AAA batteries into the battery holder. Be sure to observe the correct polarity.
3. Reinstall the battery cover back into the Remote Control until it locks in place. (Figure 2)

**NOTE:** *The Remote Control will only operate with the HR8SS Rear Seat Video Headrest System. It is not a universal Remote Control and will not control other equipment.*

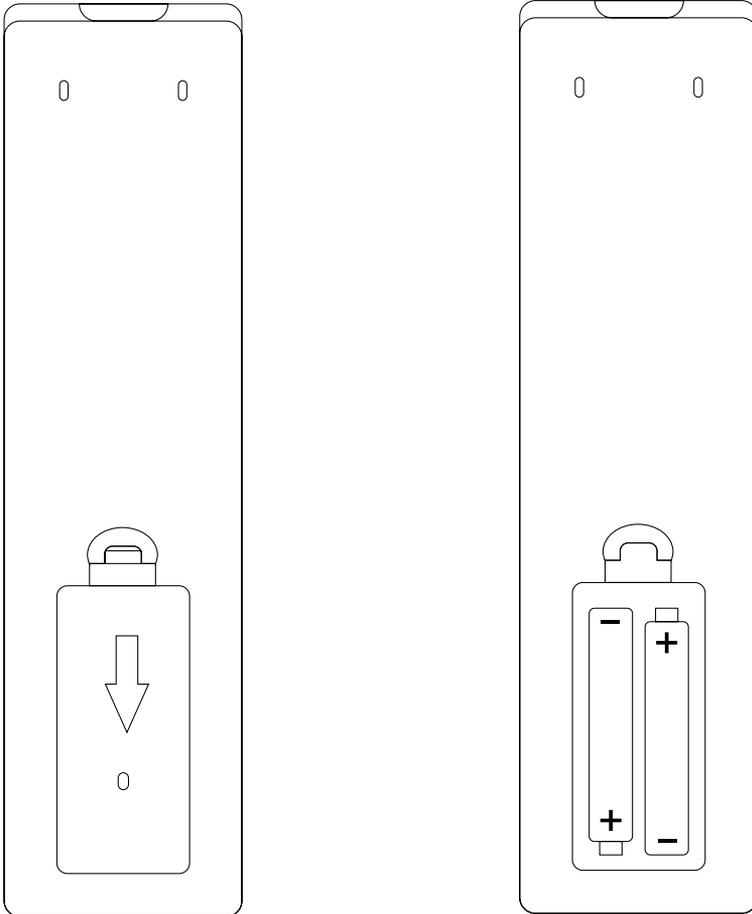

Figure 2

## HEADPHONE BATTERY INSTALLATION

### Installation of the Headphone Batteries (Actual Headphone may differ)

Each wireless IR headphone requires two AAA batteries.

1. Locate the battery compartment cover on the earphone (backside or under ear cup).
2. For headphones with under ear cup battery compartments - While holding the left earphone in one hand, insert a coin or slot head screwdriver into the screw slot and turn counterclockwise to release the battery compartment cover. Insert two AAA batteries, carefully following the markings inside the battery compartment to ensure the batteries are inserted properly ("+" and "-" ends in the correct positions). Close the battery compartment cover. Insert a coin or slot head screwdriver into the screw slot and turn clockwise to fasten the cover.
3. For headphones with backside ear cup battery compartments - remove the battery cover by sliding the cover downward. Insert two AAA batteries, carefully following the markings inside the battery compartment to ensure the batteries are inserted properly ("+" and "-" ends in the correct positions). Place the cover back on top of the battery compartment and slide up until the cover locks in place.

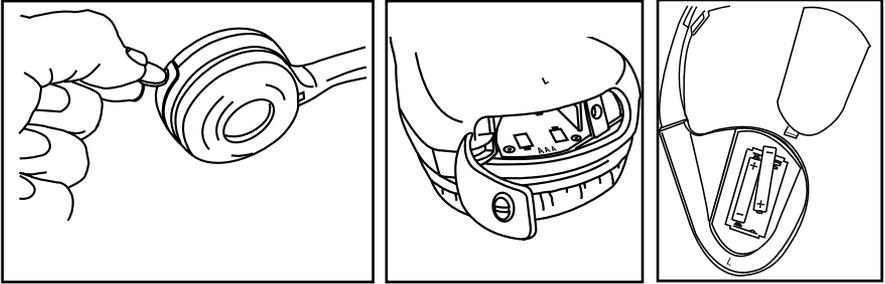

Figure 3

- Always keep the Monitors, Remote Controls and Headphones clean and dry.
- Always seek qualified personnel to perform repairs to the system or individual components of the system. **NOTE: Never attempt your own repairs.**
- Do not drop Remote Controls and Headphones or expose to strong impacts.
- Do not expose Monitors, Remote Controls and Headphones to direct sunlight for extended periods of time.
- Always ensure that the batteries are correctly installed in the Remote Controls and Headphones with the positive and negative sides in the directions as shown in the battery compartment.
- Use two AAA (1.5v) Alkaline batteries in each of the Remote control.  
**NOTE: Do not use different types.**
- Use two AAA (1.5v) Alkaline batteries in each of the Headphones.  
**NOTE: Do not use different types.**
- Do not use old batteries in the Remote Controls or Headphones.
- When the batteries fail to function, replace them immediately.
- Remove the batteries if the Remote Controls and Headphones are not used for a month or longer.
- Keep all batteries out of the reach of children. Should a battery be swallowed, immediately consult a doctor.
- When disposing of used batteries, please comply with governmental regulations or environmental rules that apply in your area.

## HR8MA1 FRONT PANEL CONTROLS

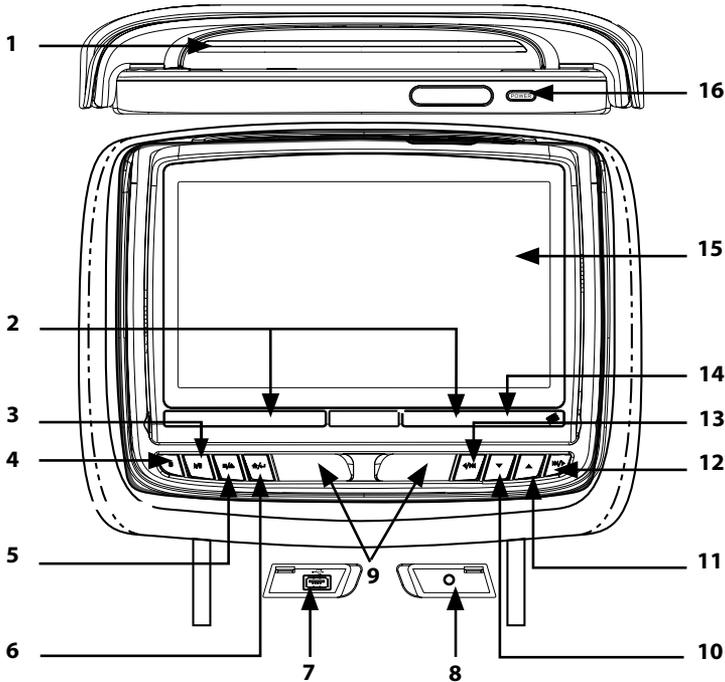

Figure 4

1. DVD disc insertion slot
2. IR TRANSMITTER and IR SENSOR  
**IR Transmitter:** Used to broadcast audio signal to the wireless IR headphones.  
**IR Sensor:** Used to receive signals from the Remote Control.
3. PLAY/PAUSE (▶/⏸) Button  
 This button is used to start playback of the disc or pause a disc.
4. SOURCE (S) Button  
 This button is used to access the USB, DVD, AV/IN, HDMI, M1/M2 and Settings.
5. STOP / EJECT (■/▲) Button  
 This button is used to stop the playback of the disc or USB in use and to eject the disc.
6. HOME / MENU SELECT (⬆/⬇) Button  
 This button is used to access the system menu. This button is also used to execute selected settings or menu options.
7. USB INPUT CONNECTOR  
 This port is used to connect a USB device for playback of content. To view content, select "USB" as the video source and insert the USB device. The USB device will start automatically. **NOTE: This input will also charge a USB device that contains a battery.**
8. AUX INPUT  
 This port is used to connect analog Audio/Video Devices.
9. JACK COVERS  
 These covers are used to protect and cover the USB port and AUX Input when not in use.
10. DOWN (▼) Button  
 This button is used to navigate through menu selections in downward direction.
11. UP (▲) Button  
 This button is used to navigate through menu selections in upward direction.

**HR8MA1 FRONT PANEL CONTROLS (continued)****12. NEXT / RIGHT (▶/▶) Button**

This button is used to skip to the next chapter or track during playback of a disc. This button is also used to navigate through menu selections.

**13. LEFT / PREVIOUS (◀/◀) Button**

This button is used to skip to the previous chapter or track during playback of a disc. This button is also used to navigate through menu selections.

**14. POWER INDICATOR**

Bright Red when OFF and dimly lit when ON.

**15. 8-inch TFT LCD Display Screen  
(800 x 480)****16. POWER Button**

- Press and release this button to turn the monitor ON.
- Press and hold this button for 5 seconds to turn the monitor OFF.

**Warnings**

Do not use any solvents or abrasive cleaning materials when cleaning the screen. Use only a lightly dampened lint free cloth to wipe the screen if it is dirty.

Lock the front panel in the fully closed position when not in use. Do not put pressure on the screen, caution children to avoid touching or scratching the screen.

**HR8MA1 QUICK START GUIDE**

1. Press the **Power** button on the top of the front panel or on the Remote Control. The power indicator will be dimly lit.
2. Insert a DVD, CD, or MP3 disc (label toward user) into the disc slot located on top of the M1 monitor. The DVD player will pull the disc in automatically.
 

**NOTE: Do not force the disc in the slot. The monitor must be in DVD mode to accept a disc.**
3. Tilt the screen to a comfortable viewing position. The screen has a built-in stop. Do not force it past this stop, otherwise damage will occur.
4. Each wireless IR headphone has an "A-B" switch used to select the audio from either the "M1" or "M2" monitor. When sitting in front of the M1 monitor, use the **CH A** setting. When sitting in front of the M2 screen, use the **CH B** setting.
  - Set the headphone to the proper channel and press the **Power On/Off** button to turn the headphones ON. The power indicator will light up red.
 

**NOTE: Turn the volume down to its lowest setting before putting the headphones on.**
5. When the DVD menu appears, select the menu item using the **UP/DOWN** buttons and press the **HOME / MENU SELECT** button on the front panel or **Play** button on the Remote Control.
6. If audio playback through the vehicle radio is preferred, use the FM transmitter **ON/OFF** button on the Remote Control. Set the vehicle radio to the channel selected on the M1 monitor. If interference with a local radio station occurs, set the FM modulator to one of the other 100 radio frequencies using the **Channel Select** button on the Remote Control or front panel.
 

**NOTE: To operate the M1 screen, press M1 button on the Remote Control. To operate the M2 screen, press the M2 button on the Remote Control.**
7. To turn OFF either the M1 or M2 monitor, press and hold the **Power ON/OFF** button for 5 seconds.

## HR8MA1 SYSTEM SETUP MENUS

### MAIN MENU - System Sources and Settings

The **MAIN MENU** is used to access and change the AV source between USB, DVD, AUX, AV/DTV (HDMI/SMARTSTREAM\*), M1/M2 sources. (The **SETTINGS** menu is also accessed through the **MAIN MENU**.) There are several ways to access the **MAIN MENU** screen

- From the front panel press the **SOURCE (S)** button. (Figure 7)
- From the Remote Control press the **SRC** button (Figure 6).

**HR8MA1 Main Menu**  
Figure 5

The **SYSTEM MENU** allows the user to personalize the HR8MA1 Rear Seat Video Headrest System settings. This menu is accessed by selecting the gear (⚙) icon in the **MAIN MENU**. The **MAIN MENU** is used in the initial setup to adjust the picture quality and customize adjustable functions. Once the initial settings are customized, they will remain the same until modified or reset to the factory default settings. There are two ways to access the **SYSTEM MENU**:

- From the key buttons, long press the **HOME / MENU SELECT (⬆/⬇)** button to call up the adjustable menu. (Figure 7)
- From the Remote Control press the **SYSTEM MENU** or **PIX** button (Figure 6).

**NOTE: SYSTEM MENU changes are best made without a DVD inserted into the unit.**

The following section describes how to adjust and set settings using the five setup screens:

### Using the System Menu

Navigating and selecting available settings in the **SYSTEM MENU** is accomplished using the Remote Control buttons (Figure 6) or the Front Panel buttons (Figure 7).

Follow the steps outlined in this section to select and customize each of the adjustable Sub-Menu functions and a Settings option listed above in the **MAIN MENU**, refer to the sections that apply.

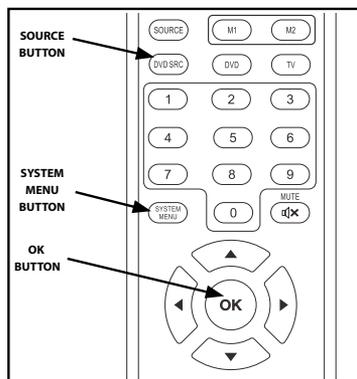

Figure 6

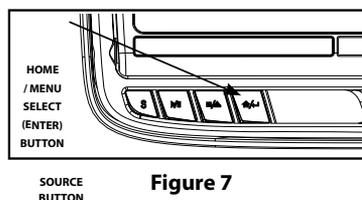

Figure 7

## HR8MA1 SYSTEM SETUP SUB-MENUS

### System Sub-Menus

1. Press the **SYSTEM MENU** button on the Remote Control (Figure 6) or long press the Home/Menu Select button on the front panel of the monitor (Figure 7) to display the **SYSTEM MENU**.
2. Use the **UP** and **DOWN** direction buttons to select and enter the desired **SYSTEM SUB-MENU**:
  - PICTURE
  - WFMM (Only M1 mode)
  - LANGUAGE
  - DEFAULT DVD
  - IR TRANSMITTER
  - SMART STREAM
  - EXIT
3. Use the **UP**, **DOWN**, **LEFT** and **RIGHT** direction buttons to adjust or select an item in the Sub-Menu screen and then press the **OK** button on the Remote Control (Figure 6) or press the **HOME / MENU SELECT** button (Figure 7).
4. To exit the **SYSTEM MENU** screen or the **SYSTEM SUB-MENU** screens and return to the **MAIN MENU** at anytime, press the **SOURCE (SRC)** button on the Remote Control or the **SOURCE (S)** button on the front panel.

**NOTE:** Selected items in the **SYSTEM MENU** and the **Sub-Menus** will be highlighted in orange.

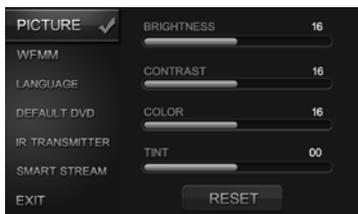

3. Use the **UP** and **DOWN** direction buttons to select one of the five selections in the Sub-Menu (Brightness, Contrast, Color, Tint and Reset).
4. Use the **LEFT** and **RIGHT** direction buttons to adjust the picture setting levels.
 

**NOTE:** Levels are set from "0" to "32" for Brightness, Contrast and Color. The level for Tint is set from "-16" to "+16". There is no Tint Control in PAL Mode.
5. Select **Reset** to return the picture setting controls to the factory default settings.

1. Select "M1" or "M2" on the Remote Control.
2. Press the **SYSTEM MENU** or **PIX** button to enter **PICTURE CONTROL** then press the **OK** button to enter the sub-menu.
3. Use the **UP** and **DOWN** direction buttons to select one of the five selections in the Sub-Menu (Brightness, Contrast, Color, Tint and Reset).
4. Use the **LEFT** and **RIGHT** direction buttons to adjust the picture setting levels.
 

**NOTE:** Levels are set from "0" to "32" for Brightness, Contrast and Color. The level for Tint is set from "-16" to "+16". There is no Tint Control in PAL Mode.
5. Select **Reset** to return the picture setting controls to the factory default settings.

### PICTURE CONTROL

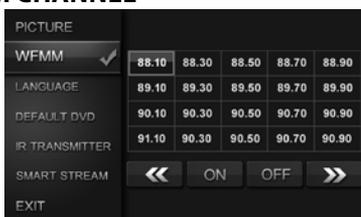

**Figure 8**  
Picture Control Menu

### PICTURE CONTROL from the Front Panel:

1. Press and hold the **HOME/MENU SELECT** button on the front panel of the unit to show the **SYSTEM MENU**.
2. Use the **UP** and **DOWN** direction buttons to select **PICTURE CONTROL** (Figure 8) and press the **HOME / MENU SELECT** button to enter the sub-menu.

### FM CHANNEL

**WFMM Channel/Frequency Menu**  
**Figure 9**

### Wireless FM Modulator (WFMM Channel Select from the Front Panel

1. Press and hold the **HOME/MENU SELECT** button on the front panel of the unit to show the **SYSTEM MENU**.
2. Use the **UP** and **DOWN** direction buttons to select **WFMM** (Wireless FM Modulator) and press the **HOME / MENU SELECT** button to enter the sub-menu.

## HR8MA1 SYSTEM SETUP SUB-MENUS (continued)

- Use the **UP**, **DOWN**, **LEFT** and **RIGHT** direction buttons to select the best channel/frequency from a five page list of one hundred frequencies then press the **HOME / MENU SELECT** button to enter selection.
- When a channel/frequency is selected, the Wireless FM Modulator screen will display the selected channel/frequency.

**NOTE:** *The WFMM menu is only available on the "M1" monitor.*

### Wireless FM Modulator (WFMM) Channel Select from the Remote Control:

- Select "M1" on the Remote Control.
  - Press the **SYSTEM MENU** or **PIX** button to enter **SYSTEM MENU**.
  - Use the **UP** and **DOWN** direction buttons to select **WFMM** (Wireless FM Modulator) and press the **ENTER** button to enter the Wireless FM Modulator sub-menu.
  - Use the **UP**, **DOWN**, **LEFT** and **RIGHT** direction buttons to select the best channel/frequency from a five page list of one hundred frequencies then press the **ENTER** button to enter selection.
- NOTE:** *When a channel/frequency is selected, the Wireless FM Modulator screen will display the selected channel/frequency.*

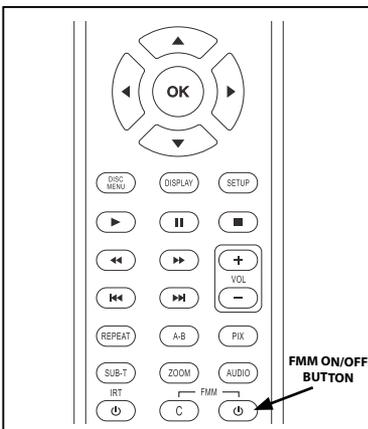

Figure 10

### WIRELESS FM MODULATOR ON/ OFF Direct Access Button on the Remote Control:

Press the **FMM ON** or **OFF** button on the Remote Control (Figure 10) to turn the Wireless FM Modulator ON or OFF. When **ON** is selected, the channel/frequency the system is set to will be displayed on the lower left-side of the main screen. When **OFF** is selected, **FMM OFF** will be displayed on the lower left-side of the main screen.

## LANGUAGE

Language Menu  
Figure 11

### LANGUAGE from the Front Panel:

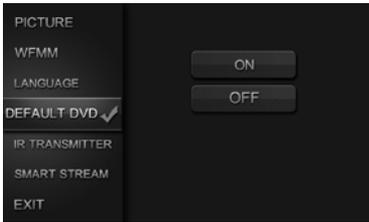

- Press and hold the **HOME/MENU SELECT** button on the front panel of the unit to show the **SYSTEM MENU**.
- Use the **UP** and **DOWN** direction buttons to highlight **Language** and press the **HOME/MENU SELECT** button to enter the sub-menu.
- Use the **UP** and **DOWN** direction buttons to select the desired language then press the **HOME / MENU SELECT** button to save the setting.

### LANGUAGE from the Remote Control

- Select "M1" or "M2" on the Remote Control.
- Press the **SYSTEM MENU** or **PIX** button to enter **SYSTEM MENU**.
- Use the **UP** and **DOWN** direction buttons to highlight **Language** and press the **ENTER** button on the Remote Control to enter the Language sub-menu.
- Use the **UP** and **DOWN** direction buttons to select the desired language then press the **ENTER** button on the Remote Control to save the setting.

## HR8MA1 SYSTEM SETUP SUB-MENUS (continued)

### DEFAULT DVD

Default DVD Menu, Figure 12

With the "Default DVD ON" feature selected, the monitor will default to *DVD Mode* each time the system is turned ON. *For example, if the user is playing a game and the system is turned OFF, the next time the system is turned ON, it will power up in DVD Mode.*

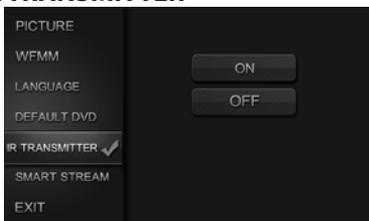

### Default DVD ON and OFF from the Front Panel:

1. Press and hold the *HOME/MENU SELECT* button on the front panel of the unit to show the *SYSTEM MENU*.
2. Use the *UP* and *DOWN* direction buttons to highlight *DEFAULT DVD* and press the *HOME / MENU SELECT* button to enter the sub-menu.
3. Use the *UP* and *DOWN* direction buttons to select *ON* or *OFF* and press the *HOME/MENU SELECT* button to enter selection.

### Default DVD ON and OFF from the Remote Control:

1. Select "M1" or "M2" on the Remote Control.
2. Press the *SYSTEM MENU* or *PIX* button to enter *SYSTEM MENU*.
3. Use the *UP* and *DOWN* direction buttons to highlight *DEFAULT DVD* and press the *ENTER* button to enter the sub-menu.
4. Use the *UP* and *DOWN* direction buttons to highlight *ON* or *OFF* and press the *ENTER* button to make the selection.

### IR TRANSMITTER

IR Transmitter Menu, Figure 13

### IR Transmitter ON/OFF from the Front Panel:

1. Press and hold the *HOME/MENU SELECT* button on the front panel of the unit to show the *SYSTEM MENU*.
2. Use the *UP* and *DOWN* direction buttons to highlight *IR TRANSMITTER* and press the *HOME / MENU SELECT* button to enter the sub-menu.
3. Use the *UP* and *DOWN* direction buttons to select *ON* or *OFF* and press the *HOME / MENU SELECT* button to enter selection. When *ON* is selected, *IRT ON* will be displayed on the *SYSTEM MENU* screen. When *OFF* is selected, *IRT OFF* will be displayed on the *SYSTEM MENU* screen.

### IR Transmitter ON/OFF from the Remote Control:

1. Select "M1" or "M2" on the Remote Control.
2. Press the *IRT ON/OFF* button to enter the Sub-menu.
3. Use the *UP* and *DOWN* direction buttons to highlight *ON* or *OFF* and press the *ENTER* button to enter selection. When *ON* is selected, *IRT ON* will be displayed on the *SYSTEM MENU* screen. When *OFF* is selected, *IRT OFF* will be displayed on the *SYSTEM MENU* screen.

or

1. Select "M1" or "M2" on the Remote Control.
2. Press the *SYSTEM MENU* or *PIX* button to enter *SYSTEM MENU*.
3. Use the *UP* and *DOWN* direction buttons to highlight *IR TRANSMITTER* and press the *ENTER* button to enter the sub-menu.
4. Use the *UP* and *DOWN* direction buttons to highlight *ON* or *OFF* and press the *ENTER* button to enter selection. When *ON* is selected, *IRT ON* will be displayed on the *SYSTEM MENU* screen. When *OFF* is selected, *IRT OFF* will be displayed on the *SYSTEM MENU* screen.

## HR8MA1 SYSTEM SETUP SUB-MENUS (continued)

### SMART STREAM

**SMART STREAM, Figure 14**

#### **SMART STREAM from the Front Panel:**

1. Press and hold the *MENU/SELECT* button on the front panel of the system for 3 to 5 seconds to show the *System Menu*.
2. Use the *UP/DOWN* direction buttons to select *SMART STREAM* and press the *MENU/SELECT* button to select between *MIRACAST/AIRPLAY* Mode.

**Note:** User need to change the source to **SMART STREAM** source.

#### **SMART STREAM from the Remote Control:**

1. Press the *System Menu* button then use the *UP/DOWN* direction buttons to select *SMART STREAM*.
2. Press OK button to select between *MIRACAST/AIRPLAY* Mode.

**NOTE: SMART STREAM ONLY CAN BE SELECTED WITH INSTALLATION OF IPP2 AND WM1.**

### REMOTE CONTROL OPERATION

REMOTE CONTROL

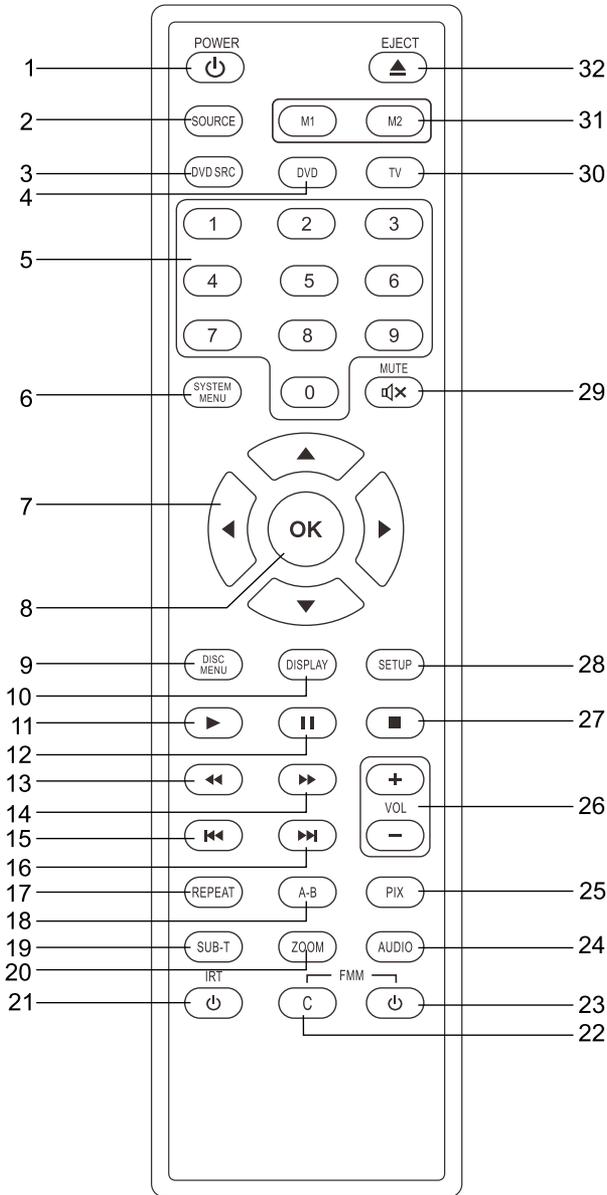

Figure 15

## REMOTE CONTROL OPERATION (continued)

1. **POWER (⏻)**  
Press this button to turn the system ON and OFF.
2. **SOURCE (SRC)**  
Press this button to display the MAIN MENU. Use the UP/DOWN/LEFT/RIGHT Arrow buttons to highlight a source then press OK to select.
3. **DVD Source**  
Not applicable on these models.
4. **DVD Mode Select**  
Press this button to control DVD functions.
5. **NUMBERS**
  - Allows the user to change the parental controls.
  - Allows the user to select tracks on a disc during playback.
6. **SYSTEM MENU**  
This button is used to make system setup adjustments.
7. **UP/DOWN/LEFT/RIGHT Arrows**  
Use these buttons to navigate the menu selections on the screen.
8. **ENTER (OK)**  
Press this button to make an OSD selection.
9. **DISC MENU**  
This button acts as a compound button that calls the RETURN or DISC MENU function. Short press the DISC MENU button to enter RETURN mode and go back to the DVD Menu while the disc is playing. Press PLAY to return to the Title/Chapter. Long press the DISC MENU button to access the menu of the DVD playing. Press PLAY to start at the beginning of the disc.  
**NOTE: These buttons can be used with the PIX button for adjusting the picture controls.**
10. **DISPLAY**  
Press the TV button (30) and the DISPLAY button (10) to show monitor status, modulator status, IR Transmitter status, M1/M2 ID, Source status.  
  
Press the DVD button (4) and the DISPLAY button (10) to show current disc information while the disc is playing.  
  
In DVD mode, press the DVD button (4) and the DISPLAY button (10) to show current disc information. Press once to show the Title/Chapter/Play Time information. Press a second time to show the OSD Subtitle/Audio Language. Press a third time to show the Title/Chapter/Time status remaining.  
Press the DVD button (4) and hold the DISPLAY button (10) for 3 seconds to enter the GO TO mode (change the Disc Title, Disc Chapter, and Play Time). Press the LEFT or RIGHT button to select the Title, Chapter or Play Time. Use the numeric buttons to enter the desired Title/Chapter/Play Time selection.
11. **PLAY (▶)**  
Press this button to initiate play mode when a disc is loaded in the disc compartment.
12. **PAUSE (⏸)**  
Press this button to pause the playback of a disc. Pressing pause again or pressing the Play button will resume normal playback.
13. **SCAN BACKWARD (◀◀)**  
Press this button to search in the backward direction. Press this button repeatedly to change the search speed from 2, 4, 8, and 16 times the normal speed.
14. **SCAN FORWARD Button (▶▶)**  
Press this button to search in the forward direction. Press this button repeatedly to change the search speed from 2, 4, 8, and 16 times the normal speed.
15. **PREVIOUS (◀◀)**  
When a disc has more than one Chapter, Track, or File, you can move to another Chapter/Track/File. Press this button briefly during play to skip back to the previous Chapter for DVD-video or Track/File for MP3, CD, etc.

## REMOTE CONTROL OPERATION (continued)

### 16. NEXT (▶▶)

When a disc has more than one Chapter, Track, or File, you can move to another Chapter/Track/File. Press this button briefly during play to skip forward to the next Chapter for DVD-video or Track/File for MP3, CD, etc.

### 17. REPEAT

Press this button to switch the repeat mode options of CHAPTER, TITLE, ALL and cancel while playing DVD-video. Other disc types such as CD have two repeat modes that can be selected: TRACK and ALL.

### 18. A-B REPEAT

Allows user to repeat the playback from point A to point B of a DVD. Press the A-B button once to select a starting point (A) and again to select an end point (B). The DVD will only play the selection from point A to point B. Press the A-B button again to cancel selection and return to normal playback of the DVD.

### 19. SUB-T (DVD MODE ONLY)

If the DVD playing has different subtitle options, press this button to display and select the desired available subtitle language.

**NOTE:** *The subtitle selections vary from disc to disc.*

### 20. ZOOM

Press this button to enlarge the picture when playing a DVD disc. Press repeatedly to change the zoom from 2x, 3x, 4x, 1/2, 1/3, 1/4 and OFF.

### 21. IRT ON/OFF

This button is used to turn the Infrared Transmitter ON and OFF for the Wireless IR Headphones. Pressing M1 then the IRT ON/OFF button will control the IR Transmitter for M1. Pressing M2 then the IRT ON/OFF button will control the IR Transmitter for M2.

### 22. FM Modulator Channel Select (C) (M1 Monitor only)

Not applicable on these models.

### 23. FMM ON/OFF (☺) (M1 Monitor only)

This button is used to turn the wireless FM Modulator ON and OFF.

### 24. AUDIO (DVD MODE ONLY)

Press this button to display and select the available AUDIO languages. Each time you press the button, the audio language changes.

**NOTE:** *The audio languages vary from disc to disc.*

### 25. PIX

This button is used to make picture adjustments. Use the UP or DOWN direction buttons to select BRIGHTNESS, CONTRAST, COLOR, TINT, or RESET. Use the UP or DOWN buttons to adjust the setting. The OSD will automatically disappear if no adjustments are made within 6 seconds.

### 26. VOLUME DOWN (-) or UP (+)

Press these buttons to control the volume level.

### 27. STOP (■)

Press this button to stop playback of disc.

### 28. SETUP

Please refer to the following pages to configure the system: General Setup Page, Audio Setup Page, Preference Page, and Password Setup Page.

### 29. MUTE (⏏)

Press this button to mute the sound transmitted to the headphones and the FM Modulator. "MUTE" will be displayed on the screen. Pressing the button again restores sound to the previously set level.

### 30. TV Refer to Item 10.

### 31. Monitor Select (M1 and M2)

Press this button to select a monitor to control.

**M1-** Press to control the M1 monitor.

**M2-** Press to control the M2 monitor.

### 32. EJECT (▲)

Press this button to eject the disc from the disc slot.

## DVD SETTINGS AND ADJUSTMENTS

The *SYSTEM SETUP* and *LANGUAGE SETUP* menus contain features and options that lets you customize your DVD player. For example, you can set the screen display or a language for the on-screen display or prevent DVD playback of certain DVD discs (for example PG-13 or R Rated) for children.

### SYSTEM SETUP and LANGUAGE SETUP

#### Using the SYSTEM SETUP and LANGUAGE SETUP Menus from the Remote Control

- From the *MAIN* menu highlight *DVD* and press *ENTER*.
- Press the *SETUP* button and the *SETUP* menu appears on the screen. There are 2 icons on the upper left side of the Setup menu. Each icon represents a page for:
 

**SYSTEM SETUP**

**LANGUAGE SETUP**
- Highlight the desired setup option using the *UP* or *DOWN* direction buttons and press *ENTER* to open the sub-menu that contains the available options.
- Press the *UP* or *DOWN* direction buttons to highlight the desired option, and press *ENTER* to confirm the selection.
- Repeat steps 2 - 4 to set the options that reside on the same Setup Page.
- To change to another Setup page, press the *LEFT* direction button to position the highlight back on the icon side of the setup page. Then, repeat steps 2 through 4.

### SYSTEM SETUP

#### TV SYSTEM

The TV System setup mode allows the user to select television standard which corresponds to your TV.

- NTSC - Select this TV type for NTSC TV
  - PAL - Select this TV type for PAL TV
  - AUTO - Select this TV type if the connected screen is multi-system.
- The output format of the video signal will be in accordance with the video signal of the disc.

SYSTEM SETUP	
TV SYSTEM	NTSC
SCREEN SAVER	PAL
TV TYPE	AUTO
PASSWORD	
RATING	
DEFAULT	

#### TV System Setup

Figure 16

#### SCREEN SAVER

The Screen Saver setup mode allows the user to turn the screen saver ON or OFF.

- ON - Screen saver will appear
- OFF - Screen saver will not appear

**NOTE:** The DVD player will enter Screen Saver mode if the unit is inactive for approximately 2 minutes.

Figure 18

#### 4:3 PS (Pan Scan)

The left and right sides of the screen are cut off and displays the central portion of the 16:9 screen.

#### 4:3 LB (Letter Box)

Displays the content of the DVD title in 16:9 aspect ratio. The black bars will appear at the top and bottom of the screen.

#### 16:9

Displays a wide picture with black bands on the upper and lower portion of the screen. The bandwidth will vary, depending on the aspect ratio of the disc.

### PASSWORD

**NOTE: The Default Password is 3308.**

The default password is always accepted even after a new password has been entered.

To avoid the possibility of others using the default password to set the parental level and change the password, record this default password in another area and delete it from this manual. The restriction of viewing disc content by younger users may be available on some discs but not on others.

## GENERAL DISC OPERATION INSTRUCTIONS

### DISC BASICS

To get the optimum use out of the DVD player, make sure you read this section completely.

#### Types of Discs the HR8D Will Play

- DID-Video: DVD containing video.
- Audio disc - CD-DA containing musical or sound content only.
- MP3 disc - A disc that contains audio files (for example, a CD-R with downloaded MP3 files).
- CD-Video: CD contains video only.
- CD-R/RW: CD contains audio files (for example, a CD-R with downloaded MP3 files), MPEG, or JPEG files.

**NOTE:** *This system is capable of playing most recordable DVD formats. However, due to the variety of disc manufacturers and software, playback cannot be guaranteed.*

**NOTE:** *The following discs will NOT play in the HR8D: Optical disc- CD-I, CD-ROM, and DVD-ROM Mini disc- CDG (audio only, not graphics), Blu-ray.*

#### Loading and Playing Discs

Before loading a disc, make sure that it is compatible with the player. Insert the disc with the disc label facing the user.

1. Press the **POWER** button to turn the system ON.
2. Select DVD mode using the front panel Source (S) button, or the SOURCE button on the Remote Control
3. Insert the disc (label facing user) into the disc slot. Push down gently on the disc and the player will pull the disc in and begin to play.

**NOTE:** *Some discs may start at the root menu, where play must be selected to start movie.*

### NOTES on Discs

- Do not touch the disc surface. Handle the disc by the edge.
- It is important that discs are clean prior to use.
- If disc is not clean, use a commercially available cleaning cloth to gently wipe the disc from the center out. (Figure 40)

Figure 26

**NOTE:** *Do not use solvents such as benzene, thinner, cleaners, or anti-static spray intended for analog discs.*

- Keep discs protected in their cases or disc magazines when not in use. Do not subject discs to heat or high temperature. Avoid leaving discs in a parked vehicle or on a dashboard or rear tray.
- Do not use discs that have aftermarket paper or plastic labels or stickers attached. The following malfunctions may result from using such discs:
  - Inability to eject a disc (due to a label or sticker peeling off and jamming the eject mechanism).
  - Inability to read audio data correctly (i.e. playback skipping, or no playback) due to heat shrinking of a sticker or label causing a disc to warp.
- Use only standard, round discs. If you insert irregular, non-round, shaped discs they may jam in the DVD player or not play properly.

## DVD REGION CODES

The DVD player is preset to a region code at the factory depending on where the DVD player is sold. The HR8MA1 region code is set to *Region 1*.

All DVD discs are coded by region. These region codes must match in order for the DVD to play. If the codes do not match, the DVD will not play. Playback of a disc from any other region will not work in the HR8MA1 and the unit will display "*WRONG REGION*".

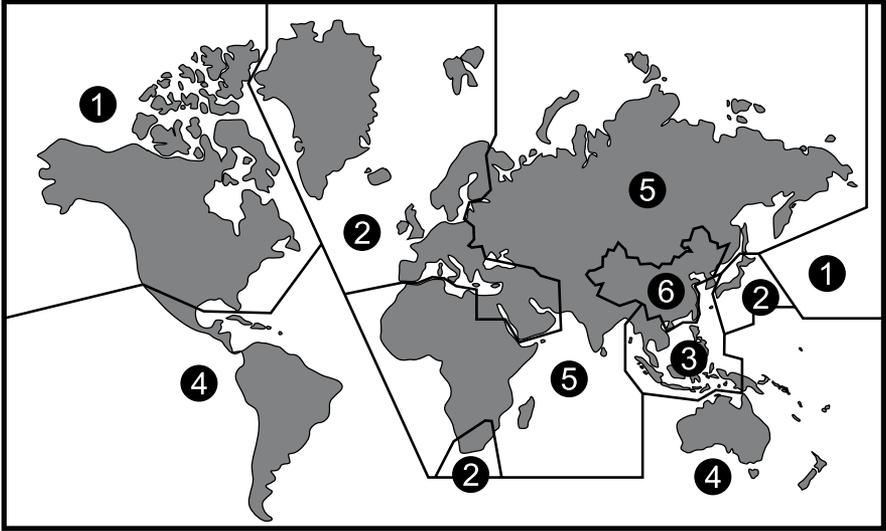

Figure 27

*Region 1*- USA, Canada

*Region 2*- Japan, Europe, South Africa, Middle East, Greenland

*Region 3*- S. Korea, Taiwan, Hong Kong, Parts of South East Asia

*Region 4*- Australia, New Zealand, Latin America (including Mexico)

*Region 5*- Eastern Europe, Russia, India, Africa

*Region 6*- China

## HR8MA1 USB

### Playing USB Memory Devices

Press the SOURCE button on the Remote Control or the Source (S)\* button on the unit to select the device source of input signal from DVD or USB memory device.

Use the (Up/Down/Left/Right) direction buttons on the remote control or on the front panel to select content to be played.

Press the OK button on the remote control or the enter button on the front panel to start playing the content.

The file types supported with the USB input for the HR8MA1 are limited to MPEG1, MPEG2, MP3 and JPEG files.

## AV INPUTS, OUTPUTS, HDMI AND USB PORT INFORMATION

### AV INPUTS, AV OUTPUTS

#### AV/DTV Inputs

An external video source, video game system, or other audio/video devices can be connected to the AV input. This AV input connection is normally performed when the unit is installed. Turn the video source component on with its power button or Remote Control and it is now ready to play the audio and video signals from the source connected to the AV input.

#### AUX Inputs

This input (yellow jack located behind the right jack cover) allows a video device with composite cable to play on the screen when connected. **NOTE: Requires optional adapter, P/N 112-3227. Contact VOXX Electronics at 1-800-225-6074.**

#### Audio/Video Output

The audio/video output will provide the audio/video signal from the M1 unit. This output connection is normally performed when the unit is installed and is connected to an AUX input on the vehicle radio. This allows listening to audio from the M1 monitor on the vehicle radio.

### HDMI

This input can be used for devices with HDMI output ports (such as smartphones, tablets, SmartTV devices) and may require the purchase of an HDMI adapter which is available from your device manufacturer. Each device has unique requirements, please consult with your device or smartphone manufacturer to determine which type of output your device supports.

**NOTE: (1) Most SmartTV Devices will require power from the USB port of the headrest system. (2) Powering the HDMI adapter for Smartphone connectivity is recommended when using the device as a source for content.**

#### Smartphones and Tablets

For Apple products, go to the Apple Store or enter the following link into your web browser to find the adapter required for your device. Different models require different adapters.

• <http://support.apple.com/kb/ht4108>\*

See the following links for other smartphone and tablet manufacturers: Samsung Multimedia adapter:

• <http://www.samsung.com/us/mobile/cell-phones-accessories/multimedia-adapters> \*

**NOTE: Some Samsung smartphones may require an additional 5-pin micro USB to 11-pin micro USB adapter in addition to the multimedia adapter.**

For other smartphone makes and models check with your device service provider to find an adapter that will work with your device.

**www.amazon.com** \* is a good source for finding an adapter that will work with your smartphone.

#### HDMI devices \*\*:

Amazon Fire Stick streaming device:

• **www.amazon.com** and search for Fire Stick

Chromecast media streaming device:

• **www.google.com** and search for Chromecast

Roku HDMI streaming device:

• <http://www.roku.com/products/compare>

#### NOTES:

\* Web links can change over time; if the above links do not function go to your device manufacturer's or smartphone service provider's web site for more information.

\*\* These devices require connection to Wi-fi or a hotspot in order to stream video content from providers such as Netflix, Hulu, Crackle, etc.

**WARNING:** Streaming video can consume large amounts of data when a smartphone is used as a hotspot. Data rates may apply. See your mobile phone service provider for details.

**NOTE: Go to: [www.voxxelectronics.com](http://www.voxxelectronics.com) for more information on available adapters.**

## AV INPUTS, OUTPUTS, HDMI/MHL AND USB PORT INFORMATION (continued)

### USB PORT INFORMATION

#### USB Port

The USB port provides two functions:

1. Media port for USB thumb drives:
2. Phone/Tablet charging:
  - The USB port will not charge a portable device when the unit is turned OFF.
  - When a DVD is playing, the USB port can be used for charging a portable device, but it will be limited to 1 Amp of charging current.
  - When the unit is not in DVD mode or USB mode, the USB port can be used for charging a portable device with up to 2 Amps of charging current.

## SMARTSTREAM OPERATION\*

### SmartStream Operation\* (Optional WM1 Module Required/ HR8SS Kits only)

Smartstream is an optional feature that allows wireless content streaming from a Smartphone or Tablet to HR8SS Headrest configurations (HR8MA1 monitors). Content that can be wirelessly streamed from your device may be restricted depending on the Smartphone or Tablet and/or the content that is intended to be streamed wirelessly to the HR8SS system.

- Apple Airplay restricts the wireless transmission of copyrighted material using DRM (Digital Rights Management). Content such as Movies or Videos purchased through iTunes or streaming services such as Netflix and Hulu will be restricted in transmitting from an iPhone or iPad wirelessly. This is not a Smartstream performance issue with the HR8SS system or WM1 module. This is an Apple limitation based on Airplay connectivity to devices other than AppleTV. Personal Photos, Videos and non-protected content can be transmitted wirelessly from Apple devices through Smartstream.
- Android is an open platform that has less restrictions related to the type of devices it can connect to wirelessly and the content that can be passed between devices. Although all content cannot be guaranteed to pass wirelessly from an Android Smartphone or Tablet through Smartstream, much more content has been found to pass when an Android device is connected to the HR8SS system.

**Note:** The only way to guarantee content can be passed from a Smartphone or Tablet to an HR8SS system is through a tethered HDMI connection (Smartphone and Tablet HDMI Adapter required which can be purchased at your local Smartphone or Tablet retailer)

## TROUBLESHOOTING

Symptom	Remedy
System does not power "ON"	<ul style="list-style-type: none"> <li>Is the ignition turned "ON"?</li> <li>Is the battery installed in Remote Control?</li> </ul>
IR Remote inoperative	<ul style="list-style-type: none"> <li>Verify that the battery in the Remote Control is good.</li> <li>Verify that the proper battery polarity (+ or -) is observed (+ side facing up).</li> <li>Verify that the remote sensor eye is not obstructed.</li> <li>Verify that the M1 or M2 button has been selected correctly.</li> </ul>
Disc won't play	<ul style="list-style-type: none"> <li>Insert a disc with label side facing toward user.</li> <li>Check if the disc is defective by trying another disc.</li> <li>Check the type of disc you put into DVD slot. The DVD player only plays DVDs, audio CDs, and MP3s. It will not play a Blu-ray disc.</li> <li>Both the DVD player and the disc are coded by region. If the regional codes don't match, the disc cannot be played.</li> </ul>
Disc plays, but then stops immediately	<ul style="list-style-type: none"> <li>The disc is dirty and needs cleaning.</li> <li>Condensation has formed. Allow the player to dry out.</li> <li>The disc is scratched. Replace the disc.</li> </ul>
No picture	<ul style="list-style-type: none"> <li>Check that you are in DVD mode if playing a DVD.</li> </ul>
Cannot advance through a movie	<ul style="list-style-type: none"> <li>You cannot advance through the opening credits and warning information that appears at the beginning of movies because the disc is programmed to prohibit that action.</li> </ul>
No sound or distorted sound	<ul style="list-style-type: none"> <li>If you are using the IR headphones, make sure you turn ON the IR transmitter on the DVD system.</li> <li>Verify that the batteries in the IR Headphones are good.</li> <li>Is volume turned "UP" on the IR Headphones?</li> <li>Is anything blocking signal between the monitor and the headphones?</li> <li>Make sure the headphones are set to the proper channel: CH.A for M1 Monitor CH.B for M2 monitor</li> <li>Make sure the FM modulator is on and the radio is tuned to the same frequency.</li> </ul>
Device feels warm	<ul style="list-style-type: none"> <li>When the monitor is in use for a long period of time, the surface will be heated. This is normal.</li> </ul>
Player does not respond to all commands during playback	<ul style="list-style-type: none"> <li>Operations are not permitted by the disc.</li> <li>Refer to the instructions in the disc inlay.</li> </ul>

**TROUBLESHOOTING (continued)**

<b>Symptom</b>	<b>Remedy</b>
Picture is distorted.	<ul style="list-style-type: none"> <li>• Check the disc for fingerprints and clean with a soft cloth, wiping from center to edge.</li> <li>• The disc might be damaged, try another disc.</li> <li>• It is normal for some distortion to appear during forward or reverse scan.</li> </ul>
No forward or reverse scan.	<ul style="list-style-type: none"> <li>• Some discs have sections that prohibit rapid scanning or title and chapter skip.</li> <li>• If you try to skip through the warning information and credits at the beginning of a movie, you won't be able to. This part of the movie is often programmed to prohibit skipping through it.</li> </ul>
HDMI input not working for the HDMI enabled device.	<ul style="list-style-type: none"> <li>• May require a special HDMI adapter. Contact your HDMI device supplier for the adapter.</li> <li>• Some devices may need to boot up before showing picture.</li> </ul>
NO SIGNAL displayed on screen	<ul style="list-style-type: none"> <li>• No source plugged into the A/V, AUX, MEDIA or HDMI input.</li> <li>• Some devices may need to boot up before showing picture.</li> </ul>
Streaming video from Netflix®, YouTube®, Amazon® etc. is choppy or stops playing for periods of time	<ul style="list-style-type: none"> <li>• Streaming video requires a good 3G/4G connection. 3G/4G connections in a moving vehicle can vary in signal strength depending on distance from cell tower, terrain and availability of 3G/4G signal.</li> </ul>
Audio, Image or Video files on micro SD card or USB thumb drive will not play	<ul style="list-style-type: none"> <li>• Verify that the file type is MPEG1, MPEG4, XVID, H.263, H.264, RMVB, MP3 or JPEG.</li> </ul> <p>Some video file burning software may not be compatible with the Android operating system.</p>

## SPECIFICATIONS

### Monitor Specifications

Type	TFT Active Matrix LCD
Resolution	800 (W) x 480 (H)
Pixels	1,152,000
Back Light	LED
Power Source	+12 VDC
Power Consumption	36W
Operating Temperature	32°F ~ 125°F (0°C ~ +55°C)
Storage Temperature	-22°F ~ 150°F (-20°C ~ +70°C)
Video Display System	NTSC/PAL
Back Light Life	20,000 hours

## COMPLIANCE INFORMATION

### FCC NOTICE

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause unacceptable interference to radio or television reception, which can be determined by turning the device OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the device and receiver.
- Consult your dealer or an experienced radio/TV technician for help.

### FCC WARNING:

To assure continued FCC compliance, the user must use the provided grounded power supply cord and the shielded video interface cable with bonded ferrite cores. Also, any unauthorized change or modifications to this device would void the user's authority to operate this device.

### NOTICE

Disposal of Old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on its packaging indicates that device shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this device is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this device. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this device, please contact your local city office, your household waste disposal service or the shop where you purchased the device. Applicable accessory: Remote Control.

### MACROVISION NOTICE

This product incorporates copyright protection technology that is protected by U.S. patents and other intellectual property rights. Use of this copyright protection technology must be authorized by Macrovision, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision. Reverse engineering or disassembly is prohibited.
