## Common Questions

---

**Q:** My TERK antenna does not work with my boom box. What can I do?

**A:** You can only use a TERK antenna on a system where there is an input for an external antenna. Some portable boom box radios do not have such an input.

**Q:** Can I extend the wire on my FM antenna to place it on a window sill or somewhere away from my receiver?

**A:** You can extend the wire with RG-59 cable and a two-way F connector. These items are available at any electronics store.

**Q:** When I touch the antenna, it works better. How come?

**A:** When you touch the antenna and your feet are touching the ground, you are acting as a giant antenna. You can only accurately judge how the antenna is working when you let it go.
