

## SMALL. LIKE BRASS KNUCKLES ARE SMALL.

Forgive us. We didn't realize that making something tiny (each speaker is 4.7-inches tall) meant it had to be puny. So we packed a whole wallop of sound into the brand new RC-Micro 5.1 Speaker System. Sure, they may go unnoticed at first. But once the powerfully pure sound grabs you by the ear and drags you in, there's no getting away.
