

Automotive Interior Excellence

AIRBAG DEPLOYMENT FMVSS TESTING

Tested at accredited facilities to
meet and **exceed** FMVSS requirements.

We tested our interior materials for airbag deployment at MGA, an accredited facility, to ensure they meet **FMVSS 208** crash protection standards.

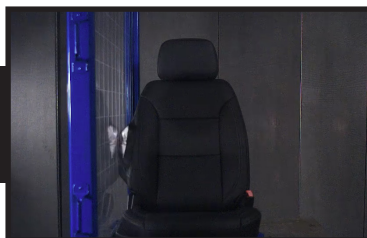

SPECIFICATION GUIDELINES

FMVSS 208, "Occupant Crash Protection," requires vehicles to meet specific performance standards for occupant safety, especially in frontal and side collisions.

OUR TEST SUMMARY:

This test found our seats **PASSED** guidelines.

FRONT TEST

SIDE TEST
